

Swim Trunks. Available in matching tile.

Who knows where inspiration comes from? Sometimes you can see a floor in the darndest things. For those times, feel free to use our Design a Space tool at johnsonite.com to design a custom Olio® tile. In this case, you might call it Swim Trunks or Paisley Beach. While you're playing with our visualizer, check out the rest of our color story and find all the tools you need to create designs that positively impact the performance of the people who use the space.
