

HOW ARIA CAN HELP YOU CREATE HIGH-PERFORMANCE ENVIRONMENTS.

High on performance, low in life-cycle costs and singular in design, Aria™ is a stand out, featuring unique accent granules that add depth to any interior. Sixteen colors in all, Aria was created as a striking companion to Melodia™, making it easy to coordinate a room, a floor or an entire institution. Whether it goes solo or is used in harmony with Melodia, Aria is an ideal choice for a wide range of applications. Homogeneous construction and a tough Polyurethane (PUR)-reinforced wear layer make Aria easier to keep clean throughout its long, 20+ year lifetime. Requiring fewer chemicals and less water, Aria is a highly sustainable product.

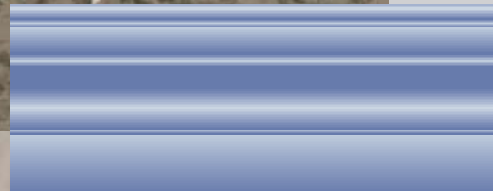

- The 16 Aria colorways include unique accent granules for added depth and dimension
- The 40 Melodia colors feature a subtle, non-directional design; perfect companions to Aria
- Homogeneous construction maintains good looks for the life of the floor
- Polyurethane (PUR)-reinforced construction for high wear resistance, low cost maintenance and reduced life-cycle costs
- Thickness: 0.080" (2.0 mm)
- Flammability: ASTM E-648 Class 1
- Colors: 16
- Roll Length: 75'9" (23 linear meters)
- Roll Width: 6'6" nominal (2 meters)
- How to order: ARI-R-(XXX) Color Number
- Please visit johnsonite.com for the most updated specifications, and installation, cleaning and maintenance instructions.

Much as the colors and patterns of Melodia and Aria are made for one another, we've intermixed them here to show you their design potential and to inspire your own combinations. Select one of the Aria colorways shown in the larger swatches. Team it with the Melodia colorways shown in smaller swatches below – or create your own combination – and the results can be outstanding.
