**2011 Metallurgy**
People would take notice.

They'd marvel at how you turned rubber into silver, gold, bronze and platinum.

Metallurgy is our most sophisticated rubber tile.

It’s the epitomy of Balanced Choice.

You get the performance of rubber with the breathtaking beauty of natural metals.

Which means Metallurgy can be a refreshing solution, especially in areas that were designed to impress, including lobbies, conference rooms or anywhere a sophisticated touch would be welcome.

Go ahead. Make practical spectacular.

What if you could balance practical with spectacular?

SHOWN HERE: ANTIQUE METAL (WGL), VENETIAN GOLD (AGM), VINTAGE COPPER (CPM) AND MAHOGANY GLAZE (BRD)
You’re convinced it’s metal.

Metallic aesthetics.

Rubber performance.
Since Metallurgy is rubber flooring, it’s naturally slip resistant. It features shock absorbing qualities and natural acoustic properties. It’s also a truly sustainable product with a long life cycle and low maintenance requirement. Over time, rubber flooring offers greater resource efficiency than many other materials.

And with the stunning Metallurgy palette, it’s a practical solution where high design is in demand.

**NATURALLY SLIP RESISTANT**

**COMFORTABLE UNDERFOOT**

**EASY TO MAINTAIN**

**NO WAXING OR FINISHING REQUIRED**

**LOW LIFE-CYCLE COSTS**

**HAMMERED TEXTURE STANDARD**

**CUSTOM LOGO AND FLOOR DESIGN CAPABILITIES**

---

Then you take the first step.
**THE COLORS OF METALLURGY**

Venetian Gold shimmers. Black Diamond dares you. Chocolate Frosting is rich with possibilities. You’ll find the right shade for your floor design in the extensive Metallurgy color and style palette. Certain colors are available in light, medium and dark shades to accommodate the most discerning tastes. Don’t be afraid to mix and match – these metals blend easily together.

To order samples, contact your Johnsonite® representative or call 800-899-8916.

---

**LOW LIFE-CYCLE COSTS**

**HAMMERED TEXTURE STANDARD**

Color Foundations™ is our commitment to always have representation across six key neutral palettes.

We’ve identified Color Foundations neutrals in the following way: WB (warm beige), CB (cool beige), WG (warm grey), CG (cool grey), B (black), W (white).

---

**TILE SIZE = 24” x 24”**

(610 mm x 610 mm NOMINAL)

**THICKNESS = 1/8”**

(3.175 mm)

**NATURALLY SLIP RESISTANT**

**COMFORTABLE UNDERFOOT**

**EASY TO MAINTAIN**

**CUSTOM LOGO AND FLOOR DESIGN CAPABILITIES**

---

Shown here: Sugar Cookie (BRL), Cocoa Cabana (BRM), Silver Slate (CGM).

Suggested Johnsonite® Metallics colors for finishing borders (wall base), slim line transitions and slim line nosings. For our complete color offering, refer to Johnsonite color guide.
METALLICS WALL BASE

The details make the design, so once you find the perfect Metallurgy shade for your floor, why stop where it meets the wall? Adding MetalSic wall base to your room brings all the elements together for a finished look. It’s part of an integrated system to help you achieve the ideal balance of aesthetics and performance. Adding the perfect finishing border is the difference between subtle and striking. We recommend you go for striking.

METALLICS COLOR PALETTE

◆ Indicates colors that are part of the Selects Color Palette.

For accurate MetalSic colors, please reference color palette D in the Johnsonite® color guide.
SHOWN HERE: MILLWORK INFLECTION IN 65 CORONADO. SEVERAL OTHER MILLWORK PROFILES AND ACCESSORIES ARE AVAILABLE IN METALLICS: OUTLINE, REVEAL, SILHOUETTE, OBLIQUE, CORNER GUARD, QUARTER ROUND AND SHOE MOULDING.
A FLOORING SYSTEM THAT’S IMPACT RESISTANT, BUT LEAVES A LASTING IMPRESSION.

SHOWN HERE: VENETIAN GOLD (AGM) AND CUSTOM PRIMA’ Olio’
**METALLICS ACCESSORIES**

Slim line transitions and slim line nosings are available in coordinating Metallics colors to keep your designs consistent. Now you can go from one floor thickness to another with shimmering metallic radiance. Both accessories help reduce slips and stumbles, so you won’t sacrifice style for safety – a key benefit of Balanced Choice.

**VISUALIZE, THEN MAKE IT REALITY**

Create your own Metallurgy floor design using our Design A Space PRO Visualizer at johnsonite.com. The Visualizer even allows you to save, print and e-mail your creation into your own business modeling tools.

For more information on nosings, transitions and other accessories visit johnsonite.com.
Metallurgy rubber tile flooring recreates the sophisticated look of real metals, bringing an upscale feel to any interior space. Available in a range of 16 sought-after metallics, including silver, gold, bronze and platinum, the Metallurgy collection has something for every style. Offering all the benefits of rubber flooring, Metallurgy is slip resistant and comfortable underfoot. It absorbs noise and shock. And it’s easy to maintain over its long lifetime, which can be 20 years or more. With Metallurgy, you’ll never again have to sacrifice appearance due to price.
